

Lab 9 – Deadline: lab 11 (same groups of minimum 3)

Themes laboratory:

1. Runtime verification, MOP
2. Github
3. Team coordination, negotiation

Problem 1 [30 points] – partial optional

On established themes continue work at the project (**All names will be in English**) and implement monitors from MOP (observation + verification (trigger actions in case of validation or violation)).

- 1) **Implement a component at 2 persons with MOP using examples from the course – 15 points – mandatory**
- 2) **Implement a component at 2 persons with MOP – 15 points – optional**

The project will be saved on Github. One person from the team will coordinate the team and will know what the members have done and will make a short presentation of components made by them. Also this person will establish and negotiate points that deserve each team member.
